Your wedding rain plan checklist

- [ ] Where the ceremony goes if it rains, and whether you have seen that space set for your guest count.
- [ ] Who makes the call, and by what time. A decision the day before is calmer than one at noon.
- [ ] What moves with you: flowers, chairs, the arch, the sound system, the lights.
- [ ] How long the switch takes, and who does it.
- [ ] Whether a tent needs to be reserved ahead, and what it costs to hold one.
- [ ] Where guests wait between the ceremony and the reception if they cannot be outside.
- [ ] How your photographer plans to use the rain, not only avoid it.
- [ ] What the rain plan changes for lighting after dark.
